### STATEMENT OF SEQUENCE LISTING

Mail Stop Sequence  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Commissioner:

Enclosed are a computer readable copy and a paper copy of the Sequence Listing for the above-identified patent application. The contents of both the computer readable and the paper copies are the same and, where applicable, include no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b) or 1.825(d).

Applicants filed a Statement of Sequence Listing on March 5, 2007. As stated therein, Applicants believed the sequence listing submitted on March 5, 2007 to be identical to the sequence listing submitted in the parent case of the present application (U.S. Patent Application No. 09/058,740) on June 30, 1998, but for minor formatting differences due to the software used to create each.

On April 10, 2007, Applicants were informed that there was a discrepancy between the sequence listing submitted on March 5, 2007 and the sequence listing submitted with the parent application. Namely, although both sequence listings contained the same twelve sequences, the sequence listing dated March 5, 2007 mistakenly stated on line <160> that there were thirteen sequences. The sequence listing submitted herewith is identical to the sequence listing filed on March 5, 2007, except it correctly states that there are twelve sequences.

Applicants have been informed that the present application has been allowed, and are currently awaiting issuance. Applicants believe that submission of the corrected sequence listing filed herewith will be sufficient to place the application in condition for issuance. If Applicants can do anything else to expedite issuance, please contact the undersigned at the address provided below.

Respectfully submitted,  
Perkins Coie LLP

Dated: April 12, 2007
